## Do You Need to Update your Information on Our Website Directory?

We keep an up-to-date member listing on our website, but it can only be as accurate as the data we receive from you, our members. Since this is an around-the-year updating process, it is available for each of us to print our directory whenever we wish to, far better than snail mailing a directory once a year that is quickly out of date with our many changes.

Go to the website: <https://www.agosm.org/membership-directory/>

and open the directory. You will need the free Adobe Acrobat Reader if you do not already have it installed. Enter the password and go to your name in the directory. If you don't have the password, contact Susan at: [agosaraman@gmail.com](mailto:agosaraman@gmail.com) and she will be able to help you.

If you have any corrections to make send her an email and we will take care of this for you straight away. Please note that we make frequent updates to the directory so make sure that you always have the latest copy of it as marked by the date of the file.

## The Kotzschmar Organ

Chapter member Roger Roszell sent us the following article link hoping that many of you would enjoy reading about this fine instrument. It is near and dear to his heart.

***“The Köttschmar Organ is one of the grandest and most celebrated pipe organs in the world.”***

Quite an introduction but especially so for a pipe organ with over 7,100 pipes and the workings that are so huge that tractor trailers could easily fit inside.

Do follow the link below for the full details on this astounding organ.

<https://foko.org/about-the-organ/>
